

## LETTER OF RECOMMENDATION

I am writing to recommend Ginja Hasini, who completed the METEOR programme with Crater from May to June 2022, during which she successfully secured a month-long work attachment with Hatch, a company that trains youth in digital skills, and delivers digital solutions to clients.

During the programme, Hasini was exposed to a wide range of in-demand skills including project management, professional communications, networking and content creation. She is an independent learner who actively seeks learning opportunities to further herself.

On top of her active and thoughtful contributions to the group during group discussions and reflections, Hasini took the initiative to lead her group members and to facilitate discussions on multiple occasions. Her maturity exceeds someone of her age, as she is eloquent and thinks critically.

She is also empathetic and sensitive to her peers' feelings, readily rendering assistance to her group-mates when needed. This was observed in a few situations during the assignments in the programme, where she volunteered to teach others when she was familiar with the workshop content.

A sense of self-awareness can also be seen in Hasini, where she empathises with the feelings, perspectives and opinions of others. Her cheerful demeanor also helps to lighten the mood of the group at times, which is a quality that is often overlooked.

In conclusion, I am highly impressed with Hasini's potential and what she is able to bring to the table. Thus, I would highly recommend Hasini as I believe that she will be a valuable asset to your organisation. If you require further assistance, feel free to contact me at hello@crater.sg and I am more than happy to answer any questions that you may have.

Regards,

**Louis Puah**
